

Remote and Hybrid Work Operational Policy

CATEGORY	Workplace & IT	EFFECTIVE DATE	January 1, 2026	REVIEW CYCLE	Annual / Q4
----------	----------------	----------------	-----------------	--------------	-------------

Article 1. Hybrid Work Model & Attendance Cadence

Nexus Corporation operates under a flexible hybrid working framework. Eligible personnel whose roles do not require persistent on-site hardware access may work remotely up to 3 days per week.

- **Mandatory Collaboration Days:** Tuesdays and Thursdays are designated as mandatory in-office collaboration days for all personnel residing within 50 miles of a regional office.
- **Fully Remote Arrangements:** Employees situated outside commuting radius of an office must hold an approved Fully Remote Designation approved by their Vice President and Head of People.
- **Core synchronous business hours** are 10:00 AM to 4:00 PM local time. Remote employees must be accessible on Slack and respond to urgent pings within 60 minutes.

Article 2. Home Office Ergonomic Stipend & Internet Allowance

Upon completion of the 90-day introductory probationary period, full-time hybrid and remote personnel are entitled to financial work-from-home infrastructure subsidies:

- **Home Office Setup Stipend:** One-time allowance up to \$500 for ergonomic office furniture, external 4K displays, mechanical keyboards, mice, or standing desks.
- **High-Speed Internet Allowance:** Monthly recurring stipend of \$50 disbursed directly through payroll to subsidize high-speed residential fiber/broadband connectivity.
- Expense reimbursement requests accompanied by itemized vendor receipts must be filed via the portal within 45 days of transaction date.

Article 3. Information Security, VPN & Data Protection

NOTE / REQUIREMENT: Remote employees must always connect through the corporate GlobalProtect VPN when accessing internal services, staging environments, databases, or production repositories.

- Workstations must be configured with full-disk BitLocker/FileVault encryption and CrowdStrike Falcon EDR endpoint protection.
- Unsecured public Wi-Fi networks (coffee shops, airport terminals) are strictly forbidden unless tethered via cellular hotspot or protected by encrypted corporate tunnel.
- Screens must be locked automatically after 5 minutes of inactivity.
